## FROM THE EXECUTIVE DIRECTOR

The Cleveland Print Room is dedicated to photography. Studies show that each and every day the average person views anywhere from 4,000 to 10,000 images. By teaching visual literacy, we enable individuals to deal critically with photography, understanding its impact on our lives. CPR aspires to help students in achieving proficiency in photographic skills, techniques, and concepts. Focused on providing photographic education to Cleveland's youth, we strive to change lives through the visual arts.

Over the past six years, we have had the privilege to work with a variety of partners. Through these collaborations we have been able to grow exponentially ensuring the availability of the best photographic education to the community.

In 2014, we were tapped by the Cleveland Foundation to be one of the organizations involved in the Creative Fusion Initiative, which enabled us to begin offering international residencies as part of our programming. It opened the door that led to an annual artist exchange with Scotland's Dundee Contemporary Arts, and local residencies including the Teen Institute's new Factory Fellowship. Since 2013, we have partnered with over fifty educational, social service and community arts organizations. We are grateful for our partnerships with MetroHealth, Cleveland Museum of Art, Cuyahoga Community College, Cleveland Public Library, and the Ohio Civil Rights Commission that help provide our students with unique opportunities.

We continue to focus our organization on providing affordable, enriching arts programming for all ages.

# TEEN INSTITUTE

## at Cleveland Print Room

Part of the Cleveland Foundation's Mastery Arts Initiative, The Teen Institute at Cleveland Print Room focuses on visual literacy, photography proficiency, and transferrable life skills by maintaining an extensive afterschool and weekend open darkroom schedule and through classes offered with our cultural partners throughout the city. Our program supports self-selected students who have prior knowledge of photography and are interested in pursuing their art further. This program enables students to enroll in several of our classes and offers a wide range of workshops to further develop their skills.

## TESTIMONIALS

**KONNIE PEROUNE**, *Teen Institute Parent*

“My daughter had no idea the steps it takes to create an image outside of digital photography. Her exposure to the hands-on experience at the Cleveland Print Room introduced her to setting aperture and F-stops for black and white images, and actually developing film in the darkroom. Learning photography “the old school way” made her have a greater respect for art. It heightened her sense of composition and lighting, and made her a better photographer. She is adamant about learning as much as she can about the craft of photography - she is in good, knowledgeable hands at the Print Room.”

**FELIX LATIMER**, *Mastery Student*

“The Cleveland Print Room offered me the opportunity to learn about photography and connect with artists in the community. I have learned a lot about photography, the art world, and community programs. It is a privilege to be a part of such a marvelous organization.”

*The Cleveland Print Room me ofreció la oportunidad de aprender sobre fotografía y conocer artistas de la comunidad. Aprendí mucho de fotografía, del mundo del arte, y de programas para la comunidad. Es un privilegio ser parte de una organización tan maravillosa.*
